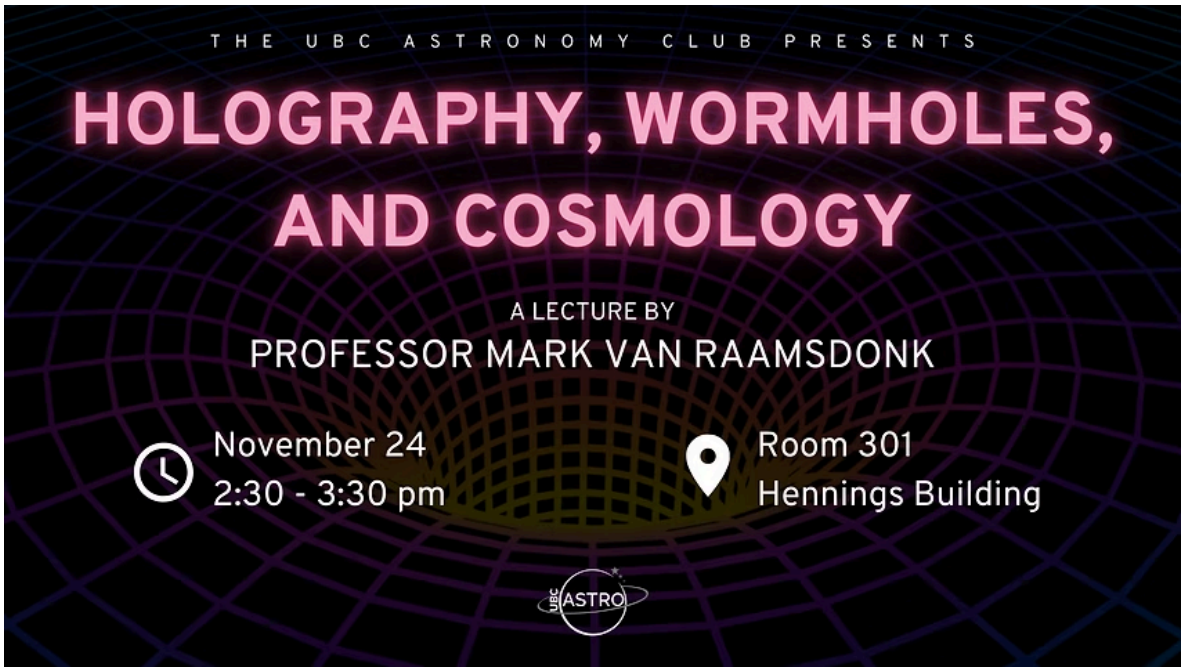
Holography, Wormholes, and Cosmology

Fri, Nov 24 | Room 316, Hebb Building UBC

A lecture by Professor Mark Van Raamsdonk



Time & Location

Nov 24, 2023, 2:30 p.m. – 3:30 p.m.
Room 316, Hebb Building UBC, 2045 E Mall, Vancouver, BC V6T 1Z1, Canada

About the event

Join us for Dr. Raamsdonk's talk about out how ordinary spacetime might arise from quantum physics, how our universe might be related to a giant wormhole, and how this picture can lead to predictions for cosmology.

UBC Astronomy Club
